

INTEGRATE YOUR PBX INTO TEAMS

Teams PBX User

Connect Microsoft Teams to any PBX phone system in minutes. Make and receive calls on any device. Plus, setup is a breeze with no hardware or software to install. Now you can bring all of your users under one platform by using Microsoft Teams for collaboration, messaging and voice. No disruptions, just an effortless cloud service experience.

Cloud Native

With a platform that operates in Microsoft's Azure cloud, count on reliable uptime. And, the SBCs used in our infrastructure are Microsoft Direct Routing approved.

Flexible

A per-user, per-month plan allows you to pay for what you need and scale at a pace that suits you. And user-by-user roll out gives you complete control of implementation and cost.

Simple

Easy one-click deployment with no additional hardware or software and no advanced Microsoft skills required. Manage your users and open support tickets online. Updates and maintenance are managed for you.

Predictable

Teams offers extensive and proven interoperability with your PBX. Now, there's no need to change your numbers or phone system. This proven cloud solution allows you to spend less time on development so you can focus on more important tasks.
